The National Assessment Program — Literacy and Numeracy

In May 2013, national literacy and numeracy assessments were administered to students in Years 3, 5, 7 and 9 throughout Australia.

This report shows your child’s achievement in those assessments.

The information contained in this report should be considered together with school-based assessments and reports.

Literacy Assessment

The literacy assessment tasks measured student achievement in reading, persuasive writing and language conventions.

Reading

Students were required to read a range of texts similar to those used in Year 9 classrooms and answer questions of varying difficulty to show their understanding of the material.

Persuasive Writing

Students were directed to write in response to stimulus material. This writing task required students to generate and organise ideas and demonstrate their skills in vocabulary use, sentence structure, spelling and punctuation.

Language Conventions

Students were required to identify and correct spelling errors and answer multiple-choice questions on aspects of grammar and punctuation.

Numeracy Assessment

The two numeracy assessment tasks measured student achievement across number; algebra, function and pattern; measurement, chance and data; and space. Questions required students to apply mathematical knowledge, skills and understandings in a variety of contexts.

How to read the student report

A student’s result is shown on an achievement scale for each assessment area.

Results across the Years 3, 5, 7 and 9 literacy and numeracy assessments are reported on a scale from Band 1 to Band 10. The achievement scale represents increasing levels of skills and understandings demonstrated in the assessments.

Results for Year 9 are reported across the range of Band 5 to Band 10, with Band 6 representing the national minimum standard for this year level.

The national average and the range of achievement for Year 9 students are also shown on the scale.

Your child’s results are shown on the inside pages of this report.
Students read a range of factual and non-factual texts of increasing length and complexity. Students were assessed on aspects of reading that included:

- finding information that is stated or inferred
- connecting, interpreting and evaluating ideas and events in a text
- reflecting on the causes of a character’s motivations, feelings and responses
- understanding techniques intended to influence a reader
- interpreting text and language features in a text
- identifying the main purpose of a text, paragraph, diagram or picture.

Students wrote a persuasive text and were assessed on aspects that included:

- supporting the reader and understanding the purpose of their writing
- structuring a persuasive text, developing ideas and points of argument, and making effective word choices
- using the conventions of written language such as grammar, punctuation, spelling and paragraphs.
Students were assessed on aspects of spelling, grammar and punctuation. Tasks included:
- correctly spelling multi-syllable words with common and difficult spelling patterns, including some challenging words
- identifying errors and then correctly spelling words with common and difficult spelling patterns, including some challenging words
- identifying examples of correct grammar usage
- recognising the correct use of punctuation across a range of contexts.

Students were assessed on aspects of numeracy. They were allowed to use a calculator for part of the assessment. Tasks included:
- interpreting and solving problems involving decimals
- solving problems involving multiple operations
- interpreting and solving complex equations
- using algebra to solve problems involving multiple operations
- recognising attributes and calculating length, area and volume of 2-D shapes and 3-D objects
- determining the probability of chance events and/or interpreting graphical representations of data.
# Summary of skills assessed

The skills described in the following table represent those typically assessed in NAPLAN tests for Year 9 students. These skills increase in difficulty from the lowest to the highest band. A student achieving a result in a particular band is likely to have correctly answered questions involving skills in that band and in each band below it.

<thead>
<tr>
<th>Band</th>
<th>Reading</th>
<th>Persuasive Writing</th>
<th>Language Conventions</th>
<th>Numeracy</th>
</tr>
</thead>
<tbody>
<tr>
<td>10</td>
<td>Persuasive Writing analyses and critically evaluates aspects of complex texts to identify the author’s purpose and stance, and to identify: an underlying message, subtle character traits, tone and point of view.</td>
<td>Writes a cohesive, engaging persuasive text that explores universal issues and influences the reader. Creates a complete, well-structured and well-sequenced argument that effectively supports the writer’s point of view. Effectively controls a variety of complex punctuation. Spells all words correctly, including many difficult and challenging words.</td>
<td>Uses mathematical understandings to solve complex problems including those involving irrational numbers.</td>
<td>Solves complex reasoning problems. Uses square roots and powers. Evaluates algebraic expressions and solves equations and inequalities using substitution. Interprets simple linear patterns and identifies non-linear rules. Solves perimeter and area problems. Determines probabilities of outcomes of experiments. Classifies triangles and uses their properties. Identifies transformations of shapes and visualises changes to 3-D objects. Determines direction using compass points and angles of turn.</td>
</tr>
<tr>
<td>9</td>
<td>Evaluates and processes implicit ideas in a range of complex narrative and information texts and interprets complex vocabulary. Analyses and evaluates key evidence in persuasive texts. Identifies language and text features to infer an author’s intended purpose and audience.</td>
<td>Incorporates elaborated ideas that reflect a worldwide view of the topic. Makes consistently precise word choices that engage and persuade the reader and enhance the writer’s point of view. Punctuates sentence beginnings and endings correctly and uses other complex punctuation correctly most of the time. Shows control and variety in paragraph construction to pace and direct the reader’s attention.</td>
<td>Demonstrates knowledge of grammar and punctuation conventions in more complex texts, such as the correct use of possessive pronouns (its) and rhetorical questions.</td>
<td>Solves non-routine problems and compares simple fractions, decimals and key percentages. Continues linear patterns and identifies non-linear rules. Solves perimeter and area problems. Determines probabilities of outcomes of experiments. Classifies triangles and uses their properties. Identifies transformations of shapes and visualises changes to 3-D objects. Determines direction using compass points and angles of turn.</td>
</tr>
<tr>
<td>8</td>
<td>Interprets ideas and processes information in a range of complex texts. Analyses how characters’ traits and behaviours are used to develop stereotypes. Analyses and interprets persuasive texts to identify bias and to infer a specific purpose and audience. Interprets vocabulary, including technical words, specific to an information topic.</td>
<td>Writes a cohesive text that begins to engage and persuade the reader. Makes deliberate and appropriate word choices to create a rational or emotional response. Attempts to reveal attitudes and values and to develop a relationship with the reader. Constructs complex sentences correctly. Spells most words correctly, including many difficult words, correctly.</td>
<td>Identifies errors and correctly spells words with difficult spelling patterns (e.g., substantial, performance). Demonstrates knowledge of grammar and punctuation conventions in more complex texts, such as the correct use of adverbs, pairs of conjunctions (neither, nor) cause and effect structures, quotation marks for effect and for speech and apostrophes for plural possession (parents’).</td>
<td>Solves multistep problems involving relational reasoning. Calculates missing values in equations. Interprets rules and patterns and completes simple inequalities using interval notation. Identifies areas of composite shapes. Calculates elapsed times across midnight and midnight. Equivalences probability as a fraction, compares and classifies angles and solves problems involving nets. Uses scale to determine distance on maps.</td>
</tr>
<tr>
<td>7</td>
<td>Applies knowledge and understanding of different text types and features to enhance meaning and infer themes and provide deeper detail that connect implied ideas across and within texts to process information and form conclusions. Interprets character motivation in narrative texts, the writer’s values in persuasive texts and the main ideas in information texts.</td>
<td>Writes a persuasive text with a developed introduction, an elaborated body and a clear conclusion. Develops plausible arguments through use of logic, language choices and effective persuasive devices. Joins and orders ideas using connecting words and maintains clear meaning throughout the text. Correctly spells most common words and some difficult words, including words with less common spelling patterns and silent letters.</td>
<td>Identifies errors and correctly spells words with common spelling patterns and some words with difficult spelling patterns (applauded, received, achievement). Demonstrates knowledge of grammar and punctuation conventions in more complex texts, such as appropriate and consistent sentence structure and the correct use of square brackets, italics, apostrophes for contractions (that’s) and possessive (school’s) and commas to separate phrases.</td>
<td>Solves multistep problems including those involving directed numbers, decimals, fractions and percentages. Continues patterns to higher terms. Finds unknowns in simple equations. Converts between familiar units of measure. Calculates durations of events. Interprets and uses data from a variety of displays. Recognises nets of familiar 3-D objects and symmetry in irregular shapes. Interprets maps using scales, legends and coordinate systems.</td>
</tr>
<tr>
<td>6</td>
<td>Makes meaning from a range of text types of increasing difficulty and understands different text structures. Recognises the purpose of general text features such as titles and subheadings. Makes inferences by connecting ideas across different parts of texts. Interprets descriptive and figurative language and identifies the main differences between characters in narrative texts.</td>
<td>Organises a persuasive text using focused paragraphs. Uses some effective persuasive devices and accurate words or groups of words when developing points of argument and ideas. Punctuates nearly all sentences correctly with capitals, full stops, exclamation marks and question marks. Correctly uses more complex punctuation markers some of the time.</td>
<td>Identifies errors and correctly spells words with common spelling patterns (record, disturb). Demonstrates knowledge of grammar and punctuation conventions in more complex texts, such as concise expression and the correct use of extended groups of adjectives, prepositions (from), commas to separate phrases and the stroke of forward slash (/).</td>
<td>Solves multistep problems including those involving directed numbers, decimals, fractions and percentages. Continues patterns to higher terms. Finds unknowns in simple equations. Converts between familiar units of measure. Calculates durations of events. Interprets and uses data from a variety of displays. Recognises nets of familiar 3-D objects and symmetry in irregular shapes. Interprets maps using scales, legends and coordinate systems.</td>
</tr>
<tr>
<td>5</td>
<td>Uses clearly stated information to connect ideas in familiar text types. Makes inferences about characters in narrative texts and identifies the main purpose of factual texts including those with tables and diagrams.</td>
<td>Structures a persuasive text to include an introduction and a body containing some related points of argument. Includes enough supporting detail for the writer’s point of view to be easily understood by the reader, although the conclusion may be weak or simple. Correctly structures most simple and compound sentences and some complex sentences.</td>
<td>Identifies errors and correctly spells one- and two-syllable words with common spelling patterns. Demonstrates knowledge of grammar and punctuation conventions in longer sentences and speech, such as the correct use of main participants in a sentence, connecting words (however), brackets and phrases referring to time.</td>
<td>Solves routine problems using a range of strategies. Recognises knowledge of fractions and decimals to hundredths. Continues number and spatial patterns. Uses familiar measures to estimate, calculate and compare area or volume. Reads graduated scales. Compares likelihood of outcomes in chance events. Recognises the effect of transformations on 2-D shapes. Uses compass points and angles of turn to interpret maps.</td>
