

# NAPLAN Online

## extended test window

The test window for NAPLAN Online is nine days, compared to three days for paper-based NAPLAN. This extended test window allows schools more flexibility in scheduling and accommodates schools that have fewer devices than students.

NAPLAN Online tests will need to be taken in a specific order. This increases the security of the writing prompt and is required for some test linkages. For instance, students must complete the reading test before accessing the conventions of language test, so that the results of the reading test can be used to determine the level of difficulty of the conventions of language test items (tailored test design).

All students in a school must complete one domain before moving onto the next (other than catch-ups).
